Grocery Store Field Trip

**Tuesday,
March 15th
9:00 to 10:30 p.m.**

We will be heading to Festival Foods to learn about using money for buying groceries! The children will have a team, a grocery list, and a specific amount of money. There will be a responsible adult with each team. The children will learn the cost of items, comparing costs, and budgeting. We are still looking for several parents to help.

Please call or email me:

Mrs. Marnocha

915-5379

Students

Where do you have to use money?

Think about where you use money. Where are you? Are you walking? Riding your bike? In the car with your family?

Do you have to get out of your car to use money?

Where do you keep your money?

At home? In the bank? In your pocket?

Thinking about money is a fun thing. There are lots of things to learn, from where is money made, to how do we get money, to how much is it worth.

Be an investigator and see if you can tell me when you would use money in your car?

Write me a note!

Parents

Math homework due tomorrow.

How can I help?

We know the importance of giving our children chances to connect with us. You should feel good if your child comes to you for help with math homework.

If you're unsure about math, don't panic. There are still ways to help.

Just keep reading.

If you're good at math, don't take over. You'll help most as a guide.

No matter what your own experiences are with math, there are questions you can ask that will help your child. So can a smile and a little encouragement.

- What is the problem you're working on?
 - Let's look at it.
 - What do the directions say?
 - What words or directions don't you understand?
 - Where do you think you should begin?
 - What do you already know that can help you work through the problem?
 - Tell me what you've done so far.
 - Where can we find help in your textbook or notes?
 - Are there similar problems to look at?
 - Let's try drawing a picture or making a diagram.
 - What did the teacher ask you to do?
 - What problems like this one have you had before?
 - Tell me where you're stuck.
 - Who can you call to get help?
 - Let's try it using a calculator.
 - Can you skip this problem and go on to another?
 - What is the number for the Homework Hotline?
 - Why don't we look for some help on the Internet?
 - What type of partial work does your teacher accept?
 - Can you go in before or after school for help from your teacher?
 - Should we tackle this when you're not so tired?
- Parents please don't be afraid to ask for help! I'm here for you!
- Mrs. Marnocha

Things to remember

Grocery Store Field Trip

Tuesday, March 15th
Bring back your permission slip

Money

What do you use money for and when is it very important to have the exact amount?
Ask your parents.
Look around!

Mathletes Unite!

Calling all mathletes!
Practice our math facts as our Math-a-thon is coming up in April. Let's be ready!
Ask for worksheets or help!

Activity for you!

Students and Friends,

Here is an activity for you to do with a friend or on your own.

Look at the money below. Can you find a pencil and write the amount of the money below it?

Do this with a friend!

Turn this in to Mrs. M

Please bring this back to Mrs. M so we can look at it together. You can do it on your own, with a friend, another teacher or adult!

We did so well last time, so if we get back 12 back this week - 12 extra minutes of play!

WAY TO GO MARVELOUS SECOND GRADERS! I LOVE TO HAVE EXTRA PLAY TIME WITH YOU!
